

Call for Papers:

Echocardiography and Vascular Ultrasound

Ultrasound

PubMed Central & ESCI Indexed

<http://journals.sagepub.com/home/ult>

Special Issue articles required

Ultrasound is currently soliciting manuscripts for a special issue devoted to **echocardiography and vascular ultrasound**. The issue is planned for publication in May 2019.

Suggested topics are as follows, but submission on other relevant topics will be considered:

- Valvular heart disease.
- Assessment of myocardial disease.
- Stress echocardiography.
- Myocardial strain imaging.
- 3-dimensional echocardiography.
- Congenital heart abnormality and inherited cardiac conditions.
- Fetal cardiac abnormalities.
- Disorders of cardiac rhythm.
- Ultrasound service delivery including audit.
- Peripheral Artery Disease.
- Cerebral Blood Flow.
- Duplex Waveform Analysis.
- Carotid Artery Reactivity.
- Abdominal Aortic Aneurysm - Elastography

Where appropriate, manuscripts should be supplemented with ultrasound images of normal and abnormal findings.

Benefits of Publishing

- Full text of articles indexed in PubMed Central following a one year embargo.
- Indexed in the Emerging Sources Citation Index (ESCI) – Web of Science™.
- Publish in the journal of the prestigious *British Medical Ultrasound Society*.
- Rigorous peer review of your research led by a world-class Editorial Board.
- High visibility on the award-winning SAGE Journals platform.
- Prompt publishing.

About the journal

Ultrasound (the journal of *The British Medical Ultrasound Society*) publishes articles on all aspects of medical ultrasound, including diagnostic applications, therapy, physics, technology, educational and professional issues.

Submission process

To be considered for publication, papers must be received by the online submission system by **1st October 2018**.

When submitting your paper please select the 'Cardiovascular Ultrasound' paper type on the online submission site. All papers will be peer-reviewed following the usual review process and criteria of *Ultrasound*.
